

A Certified Veteran Owned Small Business

OUR JOB IS A SAFER YOU.

HAZMAT TRAINING

Customized to your needs

Overview

All Safe Industries understands that each customer has unique training needs. Not only are our training modules designed to meet multiple NFPA 472 objectives, but they are fully customizable to meet the specific needs of the class.

Each training module may operate as a standalone training segment or be combined to create a full day, complete with hands-on and live scenario based training. Our expert instructors focus on using interactive learning, visual aids, and case studies to promote a fun, learning-friendly environment.

Please call us today at 888-972-3389 to schedule training and discuss how we can create a custom training curriculum for your team.

Potential topics:

- Atmospheric monitoring
- PPE
- Technical decon
- Mass casualty decon
- Mitigation techniques
- Incident command/site control
- Research and chemical properties
- Detection principles and theory
- Wet/dry chemistry
- Basic hazmat chemistry
- Toxicology and terminology
- New detection technologies
