or [FirstResponderNetwork.com](http://FirstResponderNetwork.com)

Hello and thank you for taking the time to look through our newest product selection guide. We wanted to put together something brief, but something influential in your search for First Responder, Homeland Security and Domestic Preparedness equipment. For a wider selection of products, visit our website: [FirstResponderNetwork.com](http://FirstResponderNetwork.com).

We realize that you have much to do, a brief time to do it and that funding must be used by a certain date. So let us help you close the time gap. We have knowledgeable people who can explain our products and help you choose the equipment that will best suit your application. We'll supply the information quickly so that you can make your decision and place the order.

In our 10 years, we've learned that people appreciate our extra effort. We pay close attention to the details and we always look for areas where we can provide added value. Finally, we remain committed to you with lifetime customer service and we pledge complete satisfaction.

We are a Veteran-Owned Small Business and we have a GSA Schedule in place to make purchasing from us simple. If you are a state or local government, we have established "Most Favored Customer" pricing for you, which is only slightly more than the GSA price.

Give us a call today. We're here to help you.

Sincerely,

Steve Haise, President  
All Safe Industries, Inc.

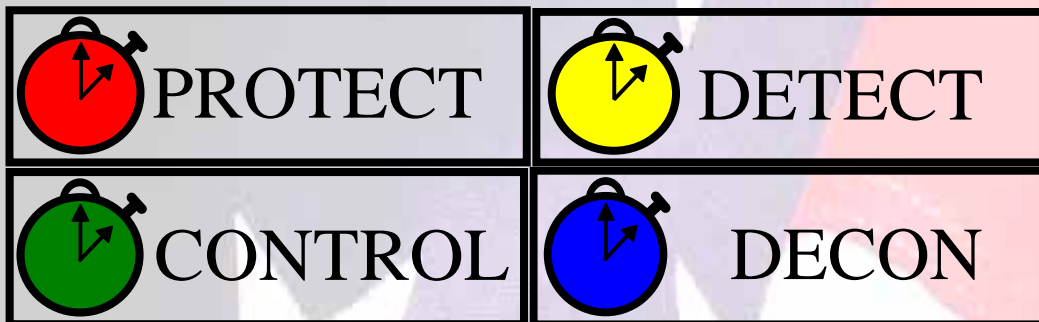

Here you'll see me on the bow of the USS Theodore Roosevelt (CVN-71), transiting the Suez Canal on the way to the Gulf War in 1991. Now I'm here to serve you.

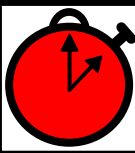

**GS-07F-5501R**

This selection guide is broken down into 4 major categories:

The paragraph numbers you see listed near each product refer to the FY2006 Authorized Equipment List. Only items found on the AEL can be purchased using Department of Homeland Security funds.

# PROTECT

The most important part of any emergency response is to protect your personnel. Our full line of Personal Protective Equipment (PPE) will help first responders stay safe while addressing whatever type of emergency may occur. Additional styles can be found at our website, [FirstResponderNetwork.com](http://FirstResponderNetwork.com).

## You Should Know:

Levels of protective ensembles refer to more than just the suit. It's a combination of how you couple the suit with respiratory protection. Here's a quick guide:

**Level A** - To be selected when the greatest level of skin, respiratory and eye protection is required. Typically includes gas tight fully encapsulating suit and self contained breathing apparatus.

**Level B** - To be selected when the highest level of respiratory protection is needed, but a lesser level of skin and eye protection. The trend now is to use encapsulating garments that are *not* "vapor tight" along with self contained breathing apparatus.

**Level C** - The concentration and type of airborne substance is known and the criteria for using air purifying respirators are met. Coverall type garment to provide basic particle or liquid splash protection recommended.

**Level D** - A work uniform affording minimal protection: used for nuisance contamination only.

## Protective Suits

Level A Suit  
Certified to NFPA  
1994 Class 1

¶ 1.2.1.1

Level A  
Ensemble Certified to  
NFPA 1991

¶ 1.4.1.1

Level A  
Training Suits

¶ 1.2.1.3

Level B Suit  
Certified to NFPA  
1994 Class 3

¶ 1.2.3.1

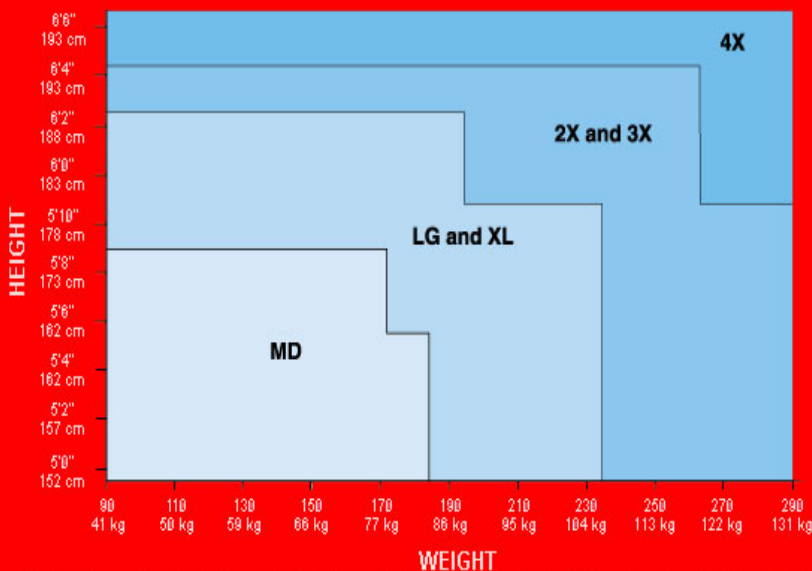

Tyvek™ Coverall  
(Level B  
Training Suit)

¶ 1.2.3.2

## PROTECTIVE CLOTHING SIZING CHART - FULLY ENCAPSULATED GARMENTS

Note: This chart is based on individuals wearing SCBA, safety helmet, and standard work clothing. Fit varies with individual body shape.

## Gloves

Liquid Splash Protection certified to NFPA 1992 ¶ **1.5.2.2**

Medical Gloves, NFPA 1999 ¶ **1.7.1.6**

Inner Cotton Gloves ¶ **1.10.2.2**

Leather Work Gloves ¶ **1.10.2.4**

## Boots

Haz Mat boots, certified to NFPA 1991 ¶ **1.3.2.1**

Latex Boot Cover ¶ **1.10.2.1**

Tyvek Boot/Shoe Cover ¶ **1.10.2.1**

## Respiratory

CBRN SCBA ¶ **1.1.1.1**

Full Face APR ¶ **1.1.2.1**

CBRN Canisters ¶ **1.1.2.2**

Escape Hoods ¶ **1.1.4.2**

PAPR (Kit) ¶ **1.1.3.1**

PAPR Batteries ¶ **1.1.3.2**

PAPR Canisters ¶ **1.1.3.3**

## Accessories

Cooling Vests ¶ **1.10.4.1**

Hard Hats ¶ **1.10.4.2**

Gear Bags ¶ **1.11.1.1**

In-suit Communications ¶ **6.3.4**

# DETECT

**Our specialty is detection equipment. We have more experience with instrumentation than any other product. Tap into our experience and let us provide you with a complete solution.**

## **Chameleon Armband with Color Change Cassettes**

Hands-free gas and vapor detection. Removable detecting cassettes allow rapid re-configuration. Rugged design for hot, cold, wet and dry conditions.

¶ 7.2.1.1

## **SAW Technology**

HAZMATCAD classifies both Chemical Warfare Agents and Toxic Industrial Chemicals. Very selective to nerve and blister agents and yields a very low susceptibility to false alarms. SAW type detector.

¶ 7.2.1.7

**Extended warranties and maintenance plans available. Call us for details.**

¶ 21.5

## **Custom Designed Storage Cases**

Protect your investment. Store your sensitive instruments in a Pelican® case. Several sizes available, some with wheels and retractable handles.

¶ 7.5.4

## **Radiation Detectors**

Pen Dosimeters ¶ 7.3.1.4

Pancake Probe Survey Meters ¶ 7.3.1.5

Pager Style Detectors ¶ 7.3.1.2

# MultiRAE Plus

# MiniRAE 2000

The original and still the best 4 gas + PID. Used by more Haz Mat Teams than any other meter, the MultiRAE's versatility allows it to replace a wide range of monitors, saving training and maintenance costs.

The world's most popular hand-held photo ionization detector (PID) for volatile organic compound (VOC) measurement. 3 year lamp warranty!

Platinum Distributor

Wireless Representatives

Authorized Service Center

¶ 7.2.1.4

Wireless Capable

¶ 7.2.1.5

Wireless Capable

# GammaRAE II Responder

The GammaRAE II is two instruments in one: it has the rapid response of a detector and the accurate dose measurement of a dosimeter. It is designed specifically to meet the needs of first responders.

¶ 7.3.1.6

# RAELink2 Transmitter

Add the RAELink2 to the MultiRAE Plus, MiniRAE2000 or ppbRAE Plus to enable wireless transmission of instrument readings up to two miles. Additional software and host modem required to view data. Call us for details.

¶ 6.3.6

## You Should Know:

With all the new technology available to First Responders, it becomes difficult to remain proficient with each piece of equipment. Sticking to one brand of detector is one way to simplify your training and reduce maintenance costs by utilizing meters that use the same sensors and calibration gases. Call us for more reasons why standardizing to RAE Systems is a great idea.

DETECT

# AreaRAE

## ppbRAE Plus

The most sensitive handheld photo ionization detector (PID) monitor in the world. Excellent for Indoor Air Quality and downwind monitoring applications.

¶ 7.2.1.5

Rae Systems sets the pace again with the first portable wireless gas detection instrument, the AreaRAE. It is a one-to-five sensor detector that transmits real-time sensor readings up to two miles away. **GPS and gamma sensor capable.**

¶ 7.2.1.4

**NEW!**

AreaRAE Responder with Stainless Steel Casing

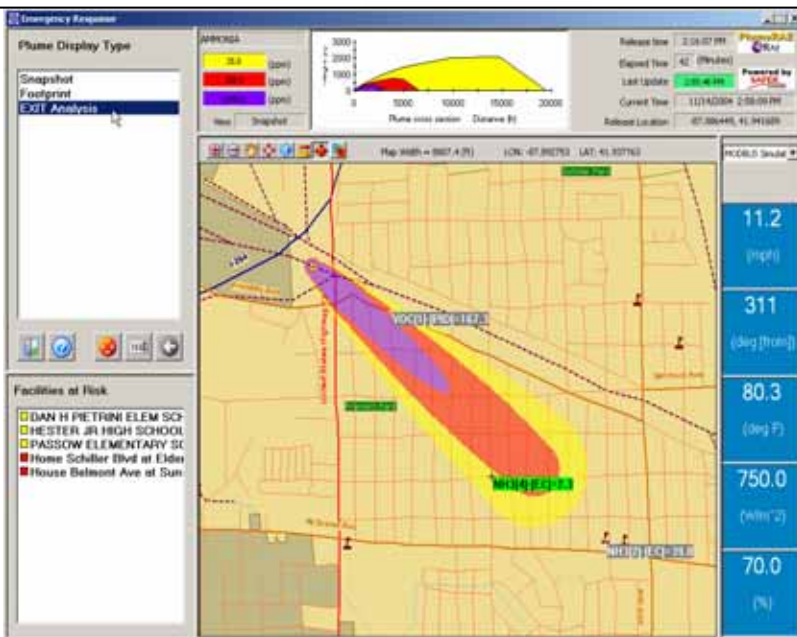

# PlumeRAE

¶ 4.1.4.1

Combine a network of AreaRAE Detectors with wireless weather parameters to create the first real-time plume measurement system. PlumeRAE accurately maps plume data over GIS data to provide Incident Commanders with the information they need to make critical evacuation decisions.

Add RAE's other portable instruments to create a blanket of detection from the hot zone all the way to the unaffected area. Call us for details.

*Various models available to meet all your monitoring needs.*

# CONTROL

Gaining control over a chaotic situation is difficult, but mandatory. Spill control, scene control, crowd control, evidence gathering, search and rescue are all tasks you will have to address. Here are just a few items to consider.

## Leak Control

### ¶ 3.2.3.3

- Pipe Repair Kits
- Drum Repair Kits
- Tanker Car Kits
- Chlorine A/B/C Kits

## Overpack Drums

Available in 20 Gal, 30 Gal, 65 Gal and 95 Gal sizes. UN rated for Haz Mat transport.

### ¶ 3.2.8.3

## Sparkless Tools

Strong, non-sparking, non-magnetic and corrosion resistant.

### ¶ 3.2.4.5

## Lockout Tagout Kits

Valve and breaker lockout devices plus locks and tags.

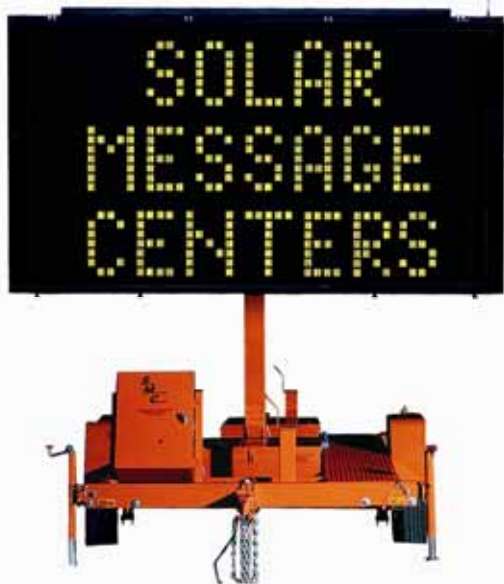

### ¶ 3.2.3.5

## Spill Control

### ¶ 3.2.3.1

Absorbent pads, socks and booms. Available in oil only, aggressive chemical and universal.

## Message Boards

Communicate from a distance or to large groups. Solar powered.

¶ 8.1.4

## Traffic Cones

Available in 12", 18", 28" and 36" sizes with or without reflective collars.

¶ 8.1.4

## Listening Devices

Locate survivors within collapsed structures.

¶ 3.1.3.1

## Explosion Proof Ventilation Fans

Ventilate confined spaces that may contain explosive gases or vapors.

¶ 3.2.8.2

## Gas Monitors

Monitor the atmosphere in confined spaces for gas leaks and toxic gas.

¶ 3.1.3.2

## Barrier Tape

Clearly mark command areas, staging areas, assembly areas, etc.

¶ 3.2.3.10

## Binoculars

Investigate HOT zones and monitor entry teams from safe distances.

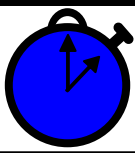

¶ 3.2.2.1

## Flashlights, Inherently Safe

Available in alkaline or rechargeable. All Pelican® products have an unconditional lifetime guarantee.

¶ 3.2.4.6

# DECON

We have a full range of decontamination products from self-decon tools to the full size inflatable shelters for mass decontaminations. We can also provide all the accessory items that make all these parts into a comprehensive system, including trailers for secure storage and rapid deployment. Our Decon Trailers include all the small details that make an effective system.

For additional items beyond what you see here, visit [www.FirstResponderNetwork.com](http://www.FirstResponderNetwork.com).

### ¶ 8.2.1

Inflatable Mass Casualty Decon Shower System handles two or three parallel lines of casualties at the same time in four sequential stations --- (1) undress, (2) detergent rinse, (3) clean rinse and (4) redress.

All plumbed areas have spray nozzles and hand held shower head.

Each shower system includes repair kit, tie-down kit and inflator-deflator assemblies.

### The Decon Hoop

Single self-decon or use half hoop to decon a patient or equipment. Lightweight aluminum tubing.

### ¶ 8.2.2

### Single Person Decon

Inflatable pre-plumbed decon unit as small as 3' x 3' x 8'. Built-in sump area for brown water containment.

### ¶ 8.2.8

### Water Heater

100,000 BTU water heater with up to three outputs.

### ¶ 8.2.9

### Generator

Power generator for lighting, pumps, etc. Various sizes and outputs available.

### ¶ 10.2.1

### Air Heater

70,000 BTU air heater. Safety heat enclosed areas.

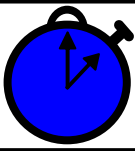

### ¶ 8.2.10

### ¶ 19.1.1 Incident Command Post

### ¶ 9.1.7.1 Negative Pressure Isolation Area

# CUSTOM RESPONSE TRAILERS

Many organizations have bought individual pieces of equipment with the plan to eventually combine them into a complete system. Often their original intent is never fully realized. Let's begin with the end in mind and design a custom system that is truly turn key and ready to go upon arrival. In the long run, you will save time, money and be immediately mission capable.

**Decontamination Trailer**  
Fully plumbed, fully powered decon trailer provides two lines for ambulatory patients. Onboard supply and storage tanks make this system completely autonomous.

¶ 12.6

**Mass Casualty Incident Trailer**  
Fully equipped to provide medical response and triage. Abundant supplies organized into bins or customized to your specific needs.

¶ 12.6

**Level B Decon Trailer**  
Fully equipped to provide decon for First Responders, day or night. Includes Level B PPE for Decon Line personnel.

¶ 12.6

**Hospital Decon Trailer**  
Fully equipped to provide mass decon in any climate, day or night. Includes PPE for First Receivers and patient redress kits with Secur-ID™ system.

¶ 12.6

## Large Scale Decontamination

Cold Plasma Ionization  
Portable Air Purification System  
Developed with DOD to eliminate biological and chemical agents.

¶ 8.2.6

## Mass Decontamination

Patient Modesty Kits  
with Secur-ID™  
Property Bags

¶ 8.3.2

**Don't forget the training.**  
We can provide equipment training tailored to your specific needs.
